

Position Summary – Field Application Specialist

At Mizar Imaging, we are scientists working with scientists. Field Application Specialists (FAS) play a key part in this close connection. Mizar Specialists run demos, support courses and trade shows, and carry out targeted marketing activities. A successful FAS will be someone who enjoys working with world leading scientists in a technical, dedicated team and who, frankly, gets geeked out about things like lasers, optics, super-res imaging, high N/A objectives and all things microscopes.

Duties and Responsibilities

- Work with regional sales managers to perform hands-on demonstrations in the United States and Canada
- Support and manage distribution channels
- Provide on site customer support, as needed
- Attend trade shows, seminars and training events representing and promoting Mizar Imaging
- Carry out installations and training
- Other duties assigned by management

Job Requirements

- B.S. degree in biological or physical sciences required; M.S. or Ph.D. preferred
- Experience in microscopy, preferably with advanced imaging techniques
- Competence with a range of imaging software applications
- Competence with Windows and Microsoft products
- Proficiency with following up and meeting deadlines
- Ability to travel 60% of time or more as needed
- Flexibility to work outside traditional working hours
- Ability to lift >50 pounds on occasion
